# TEAM APPAREL

## 1. INLINE

Mizuno inline range consists of a vast range of team apparel and equipment stocked at Mizuno's European warehouse. The inline range is available in many key colour & sizes and can be personalised using print and embroidery.

## 2. BESPOKE SUBLIMATION

Sublimation is a manufacturing process that allows for limitless design possibilities. Mizuno predominately uses sublimation for on field/court playing kit. The process allows for club crest, sponsor logos, names and numbers to be embellished into the garment for no additional cost.

## 3. BESPOKE CUT & SEWN

The term 'Cut & Sewn' is when pre-coloured fabrics are cut to shape and sewn together to create a new bespoke garment. There is still a wide range of colours to select from and logo, names and number can be applied to garments using either an embroidery or print method.

# PERSONALISE

## LOGO APPLICATION

### 1. PRINT

High definition, multi-colour print application is predominately use for personalising inline & bespoke cut & sewn garments. Ideal for sponsor logos, names and numbers.

### 2. EMBROIDERY

Traditionally used for club crest on inline and cut and sewn garments.

## ARTWORK FILES

### 1 - PRINT & SUBLIMATION

When sending logo artwork for print and sublimation orders, please ensure it is saved in a layered vector format (Ai, EPS or PDF). We are happy to convert your logo artwork to a layered vector format but this will result in an additional charge.

### 2 - EMBROIDERY

To ensure high quality and correct colours, we request that all embroidered logos are submitted in a DST file format along with a "run sheet". We are happy to convert your logo artwork to a DST file format but this will result in an additional charge.

## NAMES & NUMBERS

We recommend 20cm numbers on the back of shirts and 5cm numbers for shorts, track pants or chest and sleeve positions.
